DETAILED ACTION

Allowable Subject Matter

1. Claims 1,5-11,13-15,18,19 are allowed over the prior art of record.
2. The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the prior art fails to disclose or make obvious a system for monitoring semiconductor wafer tilt having one or more light sources that reflect light from the wafer and wherein the one or more light sources have only a single light source and wherein the one or more light detectors comprise only a pair of light detectors, and further wherein a beamsplitter to split the light generated by the single light source into a first light beam and a second light beam, and in combination with the other recited limitations of claim 1. Claims 5-10 are allowed by the virtue of dependency on the allowed claim 1.

Regarding claim 11, the prior art fails to disclose or make obvious a system for monitoring semiconductor tilt having a beamsplitter to split the light generated by the light source into a first light beam and a second light beam, a first of the pair of light detectors sensing the first light as reflected by the semiconductor wafer, and a second of the pair of light detectors sensing the second light beam reflected by the semiconductor wafer, and in combination with the other recited limitations of claim 11. Claims 13, 14 are allowed by the virtue of dependency on the allowed claim 11.

Regarding claim 15, the prior art fails to disclose or make obvious a method for monitoring semiconductor wafer tilt having a step of splitting the one light beam into a first light beam and a second light beam then sensing a first detected light value for the first light beam reflected by the semiconductor wafer by a first light detector, and sensing a second detected light

Art Unit: 2877

value for the second light beam reflected by the semiconductor wafer by a second light detector, and in combination with the other recited limitations of claim 15. Claims 18, 19 are allowed by the virtue of dependency on the allowed claim 15.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
